Md. Hamidul Islam was born in Jhenaidah, Bangladesh, in 1984. He received the B. Sc. degree in agricultural engineering from Bangladesh Agricultural University, Bangladesh, in 2008, the MS degree in farm power and machinery from Bangladesh Agricultural University, Bangladesh, in 2009 and the Ph.D. degree in agricultural science from Graduate School of Agriculture, Kyoto University, Japan in 2015. Although Dr. Islam is basically an agricultural engineer, he worked on the development of precision poultry hatchery management system during his doctoral research at Kyoto University in collaboration with NABEL Company and now working in the field of poultry management technologies.

He had held lecturer position at the Department of Farm Power and Machinery, Bangladesh Agricultural University for two years from October 2009 to 2011 and assistant professor position for 5 years from October 2011 to 2016. Currently, he is working as an associate professor at the Department of Farm Power and Machinery, Bangladesh Agricultural University. His current research interests include precision agriculture, bio-sensing, poultry farm and hatchery mechanization and machinery design.

Dr. Islam is a fellow of institute of engineers, Bangladesh, Japanese society of agricultural machinery and krishibid institution, Bangladesh.
